Home Health Care

Your local
trusted care provider

A Medicare and Medicaid
Certified Agency

Home. It is much more than a place to live. It is a personal space that holds memories and provides relaxing daily living. It captures the excitement and joy of visitors and friends. At Mary T. Home Health, we can help you remain independent and safe in your home. By listening to you, your family and physician, we will develop an individualized plan of care to meet your needs. How can we help?

Who will provide your care?

Our friendly and caring nurses, therapists and aides are trained and experienced in the care and services they provide. All caregivers have gone through an extensive background check before they are hired.

Can you request a different caregiver?

We believe the client is always right and understand the importance of having a good relationship. If you want a new caregiver, simply say so and we will accommodate you!

What services do we offer?

- **Skilled Nursing** Our experienced RNs and LPNs will oversee your care plan, monitor your health, manage your medications, care for wounds and supervise our caregivers.
- **Physical, Occupational and Speech Therapy** We will assist in restoring your strength and mobility so you can safely live in your home. Help will be provided to improve memory, attention, and motor function.
- **24/7 Live-In Care** Home health aides, working 24 hour shifts in your home, will be there to support your independence, safety and well-being. Services include personal cares, homemaking, meal preparation, medication reminders, foot care and transportation.
- **Assistive Technology** Our broad array of supportive tools range from a single motion sensor in the bedroom to a fully integrated home system including motion sensors, stove guard, emergency pendant, medication dispenser and much, much more! Our team helps make aging in place a safer and more secure reality.
- **Home Health Aides** They will assist in personal care needs such as bathing, grooming, medication reminders, simple dressing changes, and range of motion exercises.
- **Homemakers** They will do the laundry and help with meal preparation, errands, cleaning and other light housekeeping tasks.
- **In-Home Respite Care** If you are the primary caregiver for a loved one and you need to spend time away, we will be there for a few hours or a few days, whatever you need.

Do you have a choice in Home Health providers when you leave a hospital or rehabilitation facility?

Yes, you do! You have the right to select any provider you want. Ask for Mary T. Home Health and we will do our best to help you recover in the comfort of your home. Since 1976, we have provided high quality care with a personal touch.

How are services paid for?

We accept Medicare, Medicaid, Veteran's Administration, Private Insurance and Private Pay. We will assist you in determining the appropriate payment source.
